Certifications

Specialist in Dynamic Programming
Analyzing & Manipulating Data Entries in Excel for the Web

Kamal Chakravarthy Rachakonda

System Engineer @ TCS | Ex-Intern @ RealPage, Inc. | AI
Enthusiastic | DSA, Web Development
Hyderabad, Telangana, India

Summary

I'm a passionate tech enthusiast, currently interning at RealPage,
with a keen interest in AI tools that boost productivity and offer
guidance in problem-solving. My background includes hands-
on experience in software development and a foundational
understanding of Datastructures and Algorithms. I thrive in
environments where I can collaborate with others and bring my
strengths—problem-solving, teamwork, and clear communication—to
the table.

Throughout my journey, including a previous internship at Newmark,
I have developed a solid grasp of real-world applications and the
fast-evolving demands of the tech industry. My short-term goal is to
secure a full-time position at RealPage, while my long-term ambition
is to make an impact in a top product-based company.

I'm always open to connecting with like-minded professionals and
exchanging insights on emerging technologies. Let's connect to
explore collaboration opportunities, share knowledge, or discuss
industry trends!

———

Experience

Tata Consultancy Services
System Engineer
February 2025 - Present (5 months)

RealPage, Inc.
Intern
June 2024 - February 2025 (9 months)
Hyderabad, Telangana, India

Software Development Intern | RealPage | June 2023 - February 2024

Contributed to diverse technology initiatives while working with the FaCT team (Financial and Commercial Transactions) . Developed and maintained automation testing scripts using Playwright, TypeScript, and Cucumber framework. Built responsive applications using Power Apps and React Native. Collaborated on data analysis projects to drive business insights. Worked closely with cross-functional teams to implement automated testing solutions, improving test coverage and reducing manual testing effort. Gained hands-on experience in agile development methodologies and participated in daily stand-ups.

Newmark
Summer Intern
May 2023 - June 2023 (2 months)
Hyderabad, Telangana, India

During my tenure as an IT Intern at NEWMARK CRE SERVICES, I worked on impactful projects aimed at enhancing operational efficiency and technological innovation.

Key Accomplishments:

Developed an administrative interface for LumeFX modules using Python, C++, Linux commands, and Azure
technologies, streamlining operations and improving decision-making processes.
• Led the integration of ChatGPT OpenAI model with LumeFX's knowledge base (Atlassian Confluence), resulting
in a 40% improvement in information retrieval efficiency for employees, leveraging natural language processing
and AI, while also developing a proof of concept to incorporate ChatGPT OpenAI into LumeFX operations,
enhancing user experience and productivity through natural language interactions.

Education

Guru Nanak Institutions(GNI)
Bachelor of Technology - BTech, Computer Science · (2020 - 2024)

Coding Ninjas

Web Development and Datastructures & Algorithms · (July 2022 - October 2023)

Narayana Junior College - India
Intermediate, M.P.C · (June 2018 - May 2020)
